

## JLA 6 Compact Industrial Washer

Almost the same size as a domestic machine but with a larger capacity, the JLA 6 industrial washer is stylishly robust with a stainless steel finish and is extremely energy efficient. Precision made in Switzerland and remarkably quiet, the machine features an 'eco button' which dramatically reduces water consumption and cycle times. A 1,400rpm spin speed makes further savings by extracting more water from laundry and thereby reducing drying times. The washer is fitted with a built-in Type 'A' air gap to fully comply with relevant water regulations. Simple to use with push button operation, it has a large door for easy loading and unloading and can be stacked with a matching dryer.

## SPECIFICATION

Details	Standard Washer
Capacity (Kg (lb))	6 (13)
Height (mm)	900
Width (mm)	634
Depth (mm)	700
Net Weight (Kg)	116
