

JLA T20 Compact Industrial Dryer

JLA's stylish and robust compact T20 dryer is ideal for installation and use in areas where space is at a premium and superbly combines efficiency, economy and safety. Microprocessor controlled with LCD display for ease of programming and less user error, the dryer is the most efficient available saving up to 30% on gas over conventional models. Auto dry cycles prevent energy wastage and cut down on ironing and finishing. The T20 is up to twice as fast as other dryers of the same capacity

SPECIFICATION

Details	Units	T20
Capacity	Kg(lb)	9(20)
Height	mm	1062
Width	mm	686
Depth - Gas + Elec/Steam	mm	777
Depth (with door open)	mm	1463
Net Weight Gas/Elec	kg	111.13
Drum Volume	m ³ /l	0.21/210
Door Opening Ø	mm	492
Control	Microprocessor	Phase 8
Heating	Gas/Steam/Elec	
Electrics - Gas model	Volt/ph/Amp	240/1/13
Electrics - Elec model	Volt/ph/Amp	415/3/16
Electrics - Optional 8.1kW	Volt/ph/Amp	240/1/45
Electrics - Optional 5.4kW	Volt/ph/Amp	240/1/32
Electrics - Optional Steam model	Volt/ph/Amp	240/1/13
Power (Electric) standard	KW	8.1
No. of Water Connections	cold	1
Size of Water Connection	"BSP	3/4
Gas Rating	KW (Btu/hr)	11.7 (40,000)
Connection Size	"BSP	3/8
Steam Rating	Kg/hr (lb/hr)	20.41 (45)
Connection Size	"BSP Supply/Ret	1/2 / 1/2
Airflow	m ³ (ft ³)/min	6.51 (230)
Exhaust Ø	mm	100
Ventilation/Make Up	m ² (in ²)	0.026(40)

SAFE - Sensor Activated Fire Extinguishing system

SAFE is a unique system specially designed to eliminate serious fires which start in tumble dryers. Developed exclusively for JLA, the Sensor Activated Fire Extinguishing system combats blazes which are often caused by spontaneous combustion or small loads that are over-dried.

SAFE is fast and efficient. When a fire starts in a dryer drum, two sensors detect the change in temperature and activate a sophisticated water vapour mechanism.

The vapour douses flames within seconds and the drum rotates, exposing and soaking all laundry to ensure that the fire is completely extinguished. The entire process takes just three minutes and if the fire restarts for any reason, the vapour mechanism reactivates.

A great advantage of SAFE is that the risk of major damage to dryer and property and flooding to premises is eliminated.

LCD display for ease of use.

Microprocessor control with simple one-touch operation.

Auto dry cycles prevent energy wastage and cut down on ironing and finishing.

Large lint drawer, more efficient drying and easy to clean.

Fast Hot Surface Ignition reduces running costs.

Large door for easy loading of bulky items

Axial air flow system for maximum drying efficiency and fast results.

Reversing drum (special order). No tangling and more even drying for larger items.
