

JLA 1023, 1423 & 1623

Rotary Ironers

This range of robust ironers has been specially designed for professionals who require the best consistent finish.

Roller widths of 1000, 1400 and 1650mm with a 230mm diameter roller mean you can have flexibility as well as performance, with flatwork made easy. An accurate temperature control enables a wide range of fabrics to be perfectly finished, whilst the full-length pedal and return feed facility ease operation.

JLA 1023, 1423 & 1623

Rotary Ironers

Key Features

- Nomex covers extend life and provide more consistent finish. Withstand temperatures above 200°C – eliminate scorching.
- Scrapers ensure the cover is free from deposits such as starch, further extending life.
- Hard anodised aluminium pressing head does not require waxing and provides even heat distribution – no ‘hot spots’.
- Return feed allows positioning close to a wall and eases operation.
- Full-length finger guard ensures operator safety.
- Full-length control pedal eases operation.
- Thermostat control from ambient to 170°C - allows for a wide variety of fabrics to be finished.
- Robust construction.

Specification

Details	JLA 1023	JLA 1423	JLA 1623
Dimensions HxLxD (mm)	1025x1395x510	1025x1795x510	1025x2045x510
Roller Dimensions (working width) (mm Ø)	1000x230	1400x230	1650x230
Speed (mtr/min)	3.4	Variable	Variable
Voltage (Volt/ph/Amp)	240/1/32	415/3/16	415/3/16
Heat Input (kW)	5	7.2	8.4
Total Connected Load (kW)	5.2	7.5	8.7
Capacity (water evaporation) (ltr/hr)	5.0	6.78	8.05
Weight - net (Kg)	120	140	154
Exhaust Outlet (mm Ø)	-	40	40
Variable Speed	-	✓	✓

Capacity figures are calculated at no more than 20% residual moisture and are to be used as a guide only.
