

JLA

JLA 90, 120, 175, 220

Industrial Washers

With a reputation for reliability and durability, these washers have over-sized doors designed for bulky items that require heavy-duty laundering.

All machines in the range also feature fully-programmable microprocessor push-button controls and a delay start function for added convenience in non-stop industrial settings.

Industrial Washers

Key Features

- Freestanding, high spin.
- Stainless steel cabinet.
- Stainless steel drum and tub.
- Fully programmable microprocessor.
- Extra large door opening.
- Two large drain valves (Ø 103 mm).
- Easy access to all parts.
- Standard liquid soap connections.
- Frequency controlled motor.
- Perforated lifting ribs: more mechanical action, lower water consumption.
- Air operated water inlet.
- Eco washing programs - significantly reduces water and electricity consumption.
- Patented soap dispenser with 5 removable compartments.

Options

- Liquid soap pumps.
- Forward and backward tilting is available. Tilting of the machine is done by external platform.
