Construction

**Your partner in
end-to-end
solutions.**

We'll take **care** of it.

JLA

Why choose JLA

When you need end-to-end support for large-scale projects we'll bring the expertise and solutions.

Whether refurbishments or new build projects, we provide expertise in mechanical design, CAD concepting and project management right through to equipment installation and maintenance.

We're here to provide expert guidance, end-to-end.

JLA draws on five decades of experience to deliver end-to-end laundry, catering, HVAC, fire safety and infection control solutions for construction firms and architects right across the UK and Ireland.

Starting with an initial site survey and layout evaluation, we'll work with you to understand your exact needs, identify the best solutions for your specific site challenges, and install the best-in-class equipment you need to turn your visions into reality – all while helping you deliver your project on time and on budget.

And because we know compliance is non-negotiable, we guarantee that all our equipment meets the latest regulations, and will take care of the servicing and paperwork to keep it that way.

No matter how complex the job... we'll take **care** of it.

A century of hands-on experience

JLA's project leads have more than a hundred years' combined experience. With their insight, you'll enjoy practical, no-nonsense advice – and the best return on your investment.

Cutting-edge design capabilities

Thanks to our investment in the latest design software, we can work alongside your principal design teams to produce high-quality 3D CAD drawings and visualisations.

Compliance expertise

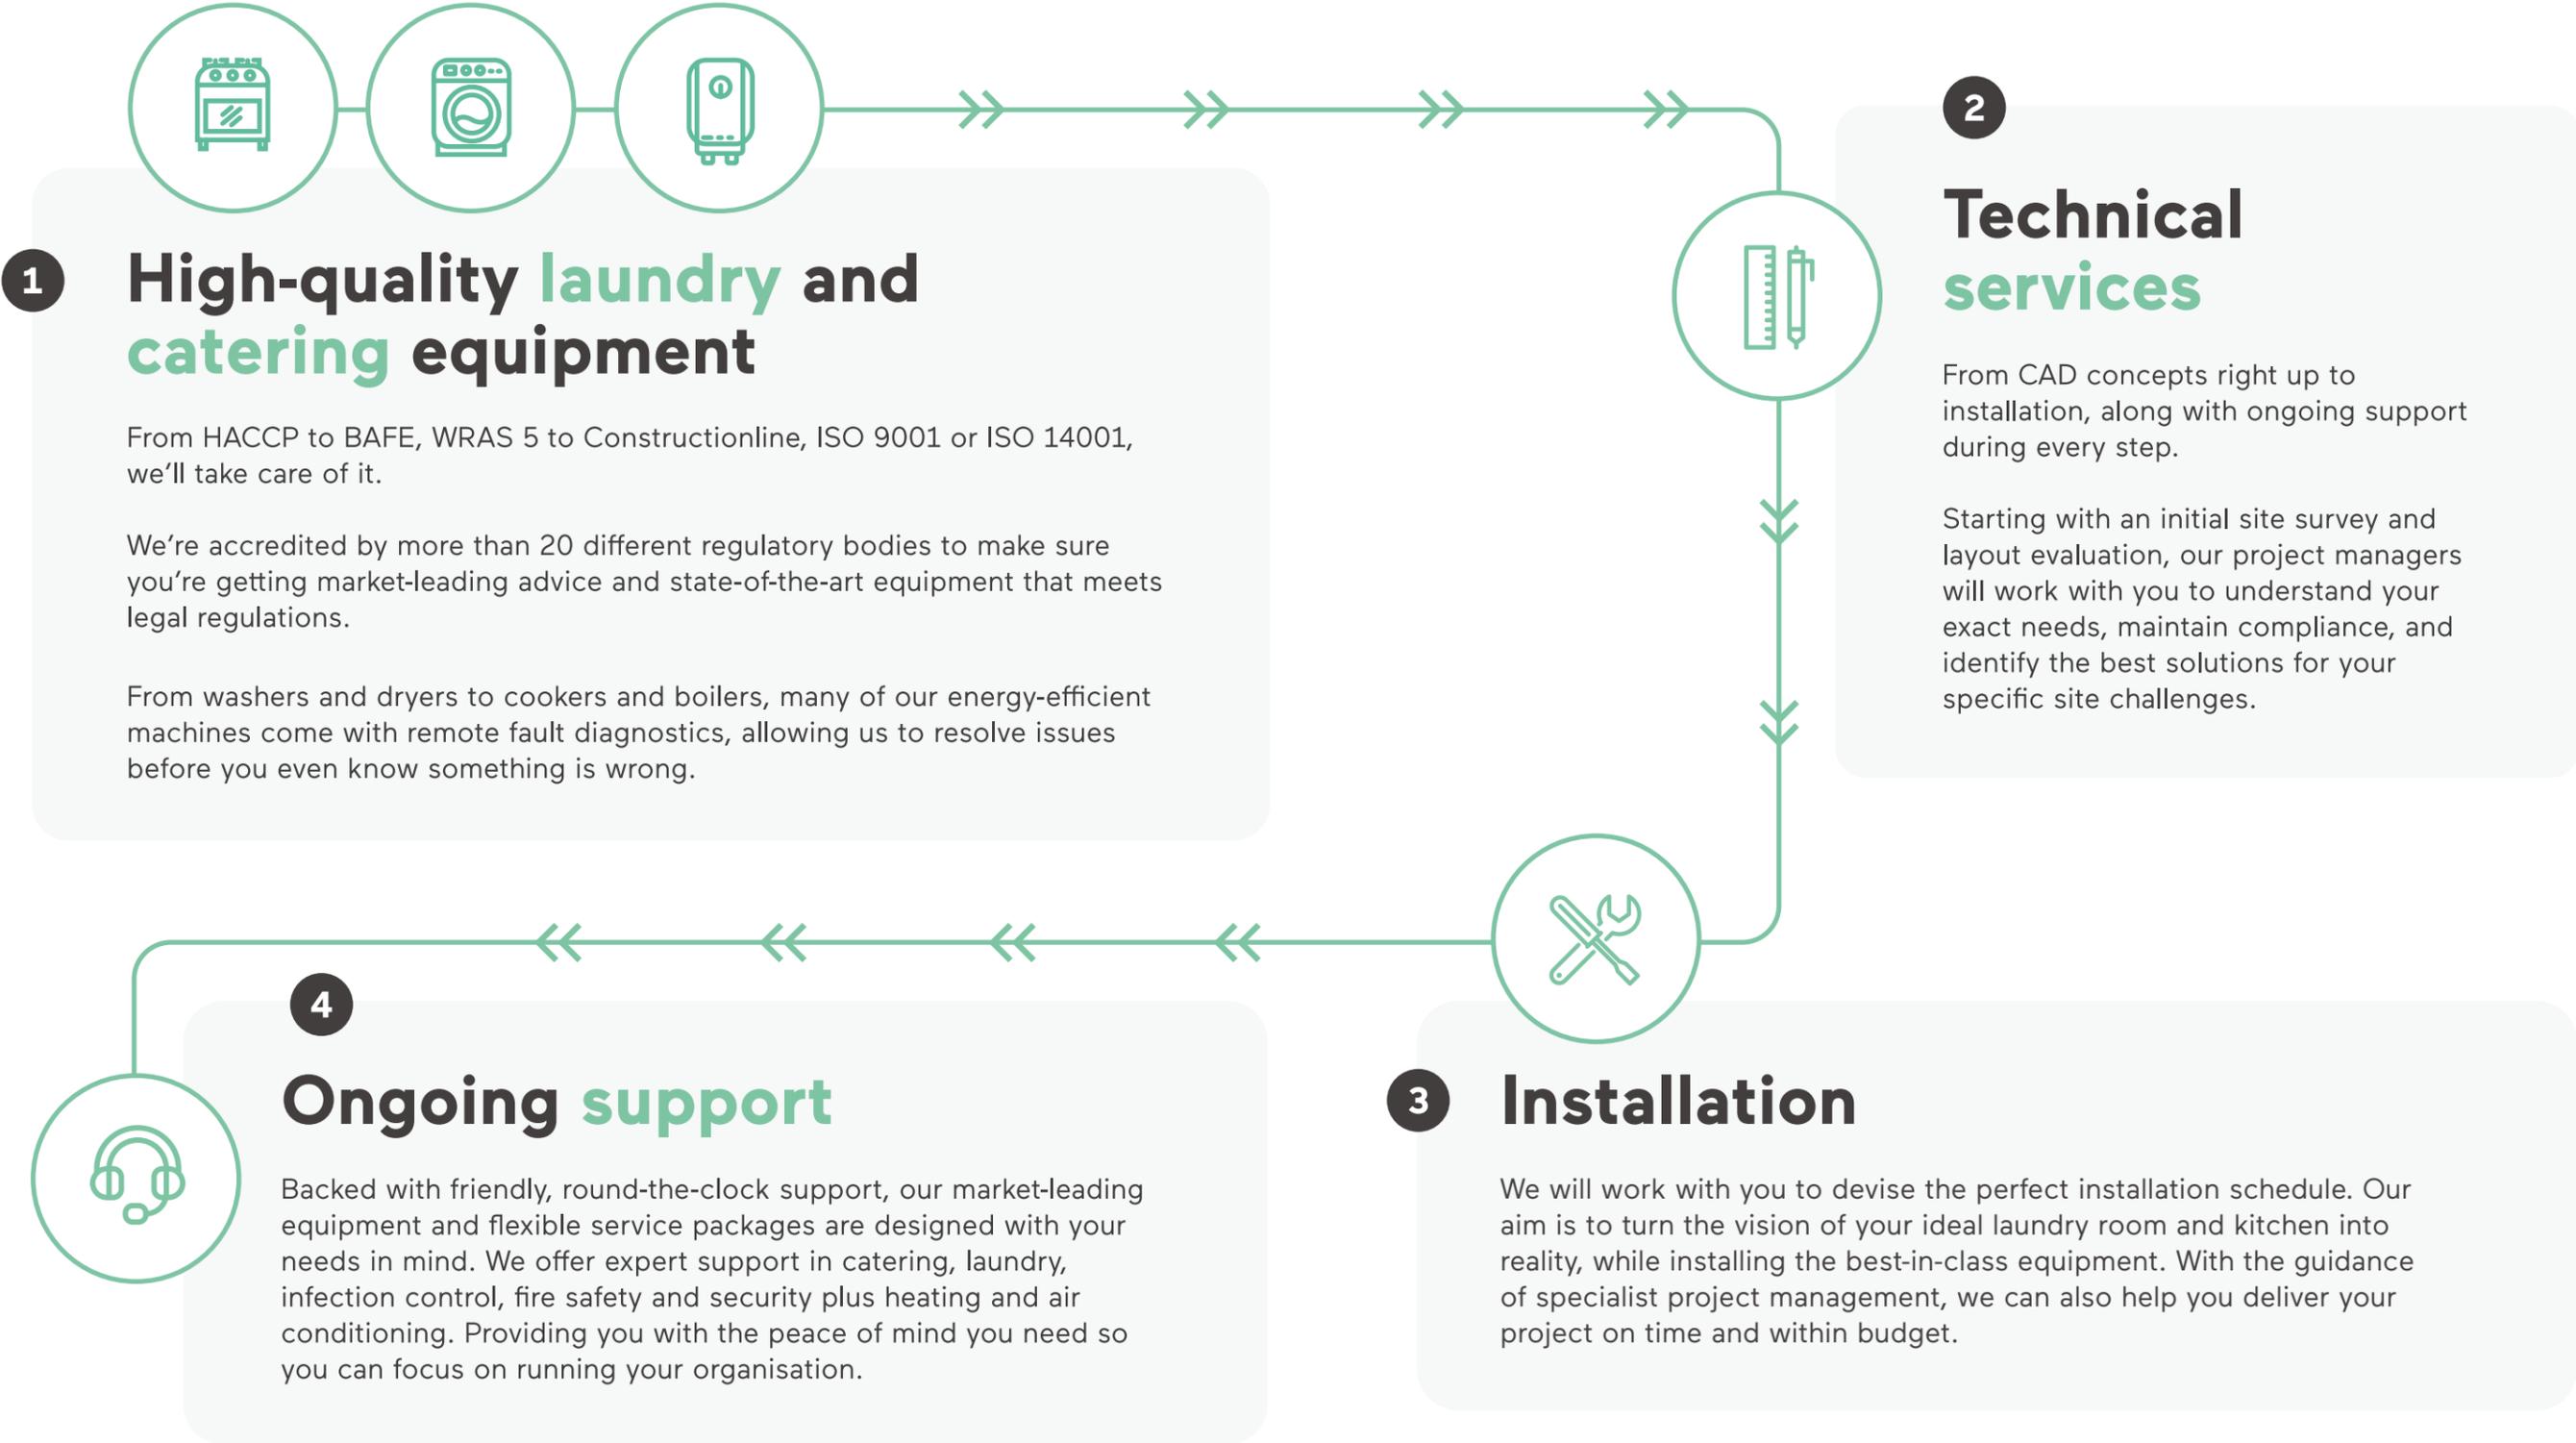

We comply with all the latest regulations to protect you and your people. What's more, we're always here to offer technical guidance and advise on compliance when you need it.

Round-the-clock support

Through remote monitoring, we can sort issues before you even realise there's a problem. And so there's help when you need it, we'll handle your service visits, and carry out all relevant inspections.

End-to-end expertise

Over 22,000 organisations trust JLA to supply and look after their laundry, catering, heating, and fire safety equipment. Discover how we'll take care of it for you.

Solutions tailored to your business

New equipment. No hidden charges.

This is JLA Total Care

With Total Care, our unique, all-inclusive package, you'll enjoy complete peace of mind.

In one monthly payment, we'll provide brand new equipment, manage call-out costs and take care of maintenance, with no hidden surprises. And if things go wrong, one of our 450 local engineers will be on your doorstep within 8 working hours.

- ✓ Market-leading equipment for no capital outlay
- ✓ Fully inclusive breakdown cover with no wear and tear clause
- ✓ Access to myJLA - Your 24/7 support portal with all essential documents in one place
- ✓ 7-day call-out service including bank holidays
- ✓ No repair bills or call-out charges, ever!
- ✓ Industry-leading engineer response times, wherever you are

Buy equipment outright

It's simple to buy JLA's market-leading machines outright, if that suits you. All our equipment comes with a 12-month warranty as standard, and when this expires we can easily add a service contract for ongoing support.

- Ongoing support available
- 12-month warranty included

Service contracts

If you need breakdown cover or compliance checks for your fire and safety systems, we'll make it work for you with annual or monthly payments, on a tailored contract.

- 5 or 7-day call out service and 24/7 phone support
- 12-month warranty included

SMART Washer

By bringing together clever features and innovative design, we've made our JLA SMART washing machines faster, greener, stronger and smarter.

- 01**

Cost savings

SMART washing machines can help you save up to 32% on utility costs.
- 02**

Built to last

Our machines are built to complete at least 37,000 washes.
- 03**

OTEX ready

All SMART machines can be fitted with JLA's ground-breaking OTEX Ozone Disinfection system.

Features you'll love

Ergonomic design

An easy-grab door handle (complete with an over-sized lock), makes our SMART washing machines simple to use.

Save up to **32%** on utility bills

400 G-Force

Next generation drum design and suspension enables 400 G-Force during spinning, which leads to greater water extraction and reduced drying times.

Auto balance

SMART washing machines protect themselves against damage caused by spinning out of balance.

JLA Touch

With a number of innovations that are designed to cut costs and drying times, our range of Touch tumble dryers continue to set a new benchmark.

- 01**

Vari-spin

Our SMART machines are programmed to know how long a load takes to dry.
- 02**

Eco-flow

To enhance heat exchange, warm air is passed through the dryer from the top and rear of the drum.
- 03**

Two-phase heating

The ambient air is drawn over the machine's stove and 'prewarmed' before going on to be heated.

Features you'll love

Drum support rollers

Specially engineered two-point roller support, which makes for smoother drum rotation and helps to extend the life of your machine.

Up to **18%** faster drying time

Reversing cylinder

Our reversing tumbler keeps everything moving inside the drum and allows your items to drop and dry more quickly.

Self-cleaning lint filter

The SMART filter is positioned, shaped and angled to allow lint to fall under its own weight reducing the need for emptying.

JLA passthrough dishwasher

Efficient, powerful and easy to operate thanks to electronic controls and a digital temperature display, the JLA H615W/SW-10C sets the standard for warewashing in busy kitchens.

01
Water softener

Optional integrated water softener available.

02
Saves you energy

A fully enclosed 4-sided energy saving hood keeps energy and humidity inside and saves up to 3kW of energy per wash.

03
Temperature control

Electronic control with digital temperature indicator.

Features you'll love

Temperature control

Thanks to the unit's thermostop function, you'll enjoy the peace of mind that comes with guaranteed temperatures.

Uses **35%** less detergent

Powerful pump

The dishwasher's strong wash pump delivers consistent high performance, even on shorter cycles.

Easy cleaning

A deep-drawn compact wash tank with no joins means no trapped soil or debris, and effortless cleaning.

Fridge Freezer

JLA's range of cabinets are manufactured to the highest standards and feature the latest in 'cool smart' technology, effective in high-ambient environments.

- 01**

Reliability

Offers commercial reliability and performance in a domestic footprint.
- 02**

Energy saving

Saves on energy costs through innovative energy-efficient controller.
- 03**

Correct temperature

Maintains required temperature in environments up to 32°C.

Features you'll love

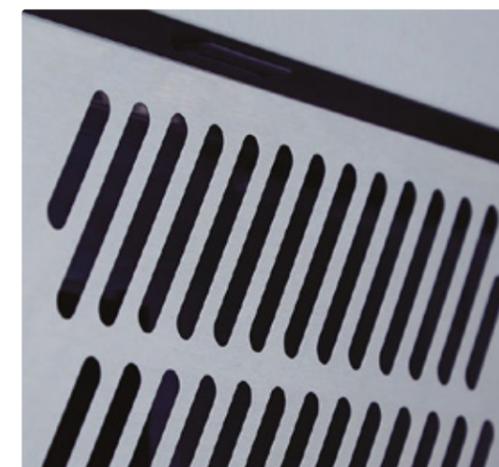

Easy cleaning

Stainless steel with aluminium interior sides and base for durability and easy cleaning.

HACCP reporting

Aids HACCP reporting with clear digital temperature display.

Improved performance

Employs high-efficiency fans for improved air circulation and performance.

Combi-ovens

Save time, money and energy with our efficient ovens, complete with pre-programming to make mealtimes easier.

- 01**

Easy-to-use touch screen

Easy-to-use touch screen operation plus, one-touch operation and six pre-programmed cycles.
- 02**

Smart food combi-function

Optimise your time and energy use with our smart food combination function, which indicates which ingredients can be cooked together.
- 03**

Triple-glazed door as standard

Retains heat in the cooking chamber and prevents loss of energy.

Features you'll love

Informative video demonstrations

Helpful how-to-use guides that give you support at any time.

Save up to **30%** on running costs

Automatic adjustment of temperatures and times

Great for ensuring cook consistency when the oven is full.

Monitor your energy usage

Energy and water usage is shown after each cooking process.

Fire Safety & Security

Safety and helping you understand regulations is our top priority. At JLA, we design, install and commission fully accredited fire safety and security systems that offer protection when it matters, and are only disruptive when they need to be.

What's more, we back these systems with annual and bi-annual servicing options and fire risk assessments, and work closely with the government to understand and help you plan for any upcoming changes in regulations.

**In short, we stay ahead...
so you stay compliant.**

*We design, install
and commission fully
accredited fire safety and
security systems.*

Fire risk assessments

Proactive risk assessments take the stress out of safety. We're BAFE SP205-accredited, so our experts can identify risks and help you mitigate them.

Fire alarms, fire extinguishers and emergency lighting

Prioritise safety whilst meeting regulations with our market leading safety systems including; fire alarms, fire extinguishers and emergency lighting.

Fire doors

Stay compliant with our BM Trada Q Mark FD30 and FD60 fire-resistant doors.

Security

Our CCTV systems, access controls and intruder alarms keep your buildings safe.

Heating & Air Conditioning

With a team of experts, we understand your commercial heating and air conditioning needs and following a commercial heating system design consultation we can create your bespoke solutions.

We invest in the development of commercial heating equipment that's designed to save as much energy as possible without sacrificing comfort, so whether you're looking for alternative heating technologies or hybrid heating solutions, we've got just what you need.

Plus, expect guaranteed peace of mind every step of the way from our compliance with F Gas regulations to our Refcom elite certified engineers.

We'll take **care** of it .

We look at your specific needs and develop the right commercial heating or air conditioning solution for your business.

Future-proof hydrogen ready boilers

Our new systems reduce energy costs and consumption.

Wall-mounted air conditioning units

Offering high seasonal efficiency, advanced control options and quiet operation, this range provides extreme flexibility and ease of installation.

Wall-mounted boilers

Wide range of heating solutions, perfect for areas with limited floor space.

Ceiling-mounted air conditioning units

A ceiling cassette system that blends a host of outstanding features with a sophisticated streamlined design.

Take control with **myJLA**

24/7 online account access

Manage your JLA account from anywhere, anytime, with key information and support right at your fingertips.

Simplified accounts and billing

With instant access to invoices and online payments, you'll never have to search your emails to stay on top of your account.

Instant support when it matters

Get engineer support fast, plus easy access to our friendly support team with no need to call or wait around on critical issues.

View all sites and equipment in one place

Access essential documents, including contracts, job sheets, invoices, compliance and safety records, for every site and appliance.

Order your JLA detergents direct

Never run out of our specially formulated detergents again with easy online purchasing and flexible subscriptions.

The screenshot displays the myJLA web application interface. On the left is a dark sidebar menu with options: Home, Sites, Equipment, Repairs & maintenance, Repair visits, Compliance, Detergents & Consumables, Browse products, View orders, View basket, Manage subscription, Accounts & billing, Invoices, Contracts, and Account details. The main content area shows the breadcrumb 'Home > Equipment > JLA 98 washing machine'. The top right has buttons for 'Chat now', 'Book a repair visit', and a user profile for 'Lovely Care Group'. The main content displays 'JLA 98 Washing Machine' with serial number '04r5HG663X1', site 'Green Acres Care Home', installation date '01/06/2021', and 'Live call outs: 1'. A 'Book an engineer' button is present. Below this is a 'Number of Cycles' section with a bar chart showing: Total: 90 Cycles, Hot + prewash 60°C (47), Fast hot 60°C (21), Warm-pretwash (20), Thermal Disinfection (10), and Extra hot 90°C (2). A 'JLA connect' logo is overlaid on the right side of the screen, with text: 'JLA connect allows our experts to remotely monitor and care for your compatible equipment - spotting issues before you even know about them, and sorting them quickly. And with real-time energy usage and CO2 emissions estimates, JLA Connect can also help you improve efficiency while reducing your costs.'

JLA Insights

JLA Insights works with JLA Connect and myJLA, so you can see which laundry machines are used most, allocate resources for busier periods, ensure correct wash cycles are used to maintain compliance and run more cycles during off-peak times to reduce your carbon footprint, all without you having to be on site.

End-to-end **expertise** in care home laundry room design

JLA offers end-to-end expertise from CAD concepts to project management, installation, and ongoing support. Plus, JLA have a dedicated team of experts and have been designing efficient, CQC-compliant laundry rooms for care homes for over 50 years.

We have created a step-by-step guide on how to build a safe and efficient laundry room, brought to you directly from our experts.

About the team

Meet some of our expert key contacts for your sector. With their combined knowledge and commitment, our dedicated team are here to support you every step of the way.

Paul Burton
Business Development Director

After 35+ years working in the construction market, Paul continues to focus on building strong partnerships with contractors and architects nationwide.

In recent years, Paul has specialised in sustainability and reducing the carbon footprint of projects, and is passionate about driving change and creating a cleaner future for our children. You can rely on Paul to deliver the right products, at the right price, with the best service.

Charles Webster
Business Development Executive

Charles offers in-depth knowledge of the latest advancements in commercial laundry and catering equipment, making him the ideal person to guide you through your equipment selection process.

Driven to provide transparent and responsive support, Charles is enthusiastic about sustainability, decarbonisation, and helping his clients enjoy the best possible value from JLA.

Compliance

Forms and audits can be complex and time-consuming... but compliance isn't a grey area.

That's why it pays to know that, along with making sure your equipment is serviced and compliant for now and the future, we also understand and stay up-to-date with regulations in all sectors. This means we can provide expert advice and help you manage all the necessary paperwork.

JLA is fully accredited by more than 20 different regulatory bodies, including the leading fire safety bodies, so you'll stay compliant. From HACCP to Gas Safety certificates, WRAS 5 to ISO 9001 or ISO 14001, we'll take care of it.

Accreditations

JLA is accredited by more than 20 bodies, including:

National coverage. Local support.

With 450 engineers based all over the UK and Ireland, we're on hand to keep you up and running.

Local engineers, nationwide

With the industry's largest distribution of engineers, we're always just around the corner.

A team you can trust

JLA engineers are trained, trusted and managed by us. The JLA logo on our workwear isn't just a promise of quality, but accountability. It says, from installation to maintenance, we'll take care of it.

Smart diagnostics with thousands of parts in stock

We know there's no time for downtime. Thanks to 350,000 parts held in stock and a powerful diagnostic system that finds faults quickly, we fix most problems on our first visit.
